

As of 15 January 2016

Dr. Werner Rühm

Werner Rühm (Germany) has been a member of Committee 1 since 2005. After training in physics, he started his research career at the Federal Office for Radiation Protection, Germany, in radioecology and in-vivo counting. When working at the Radiobiological Institute, University of Munich, he concentrated on neutron dosimetry of the atomic-bomb survivors. He has served as a consultant for the ICRU and the US National Academy of Sciences, and received the Japanese Government Research Award in 1997. More recently, he joined the Helmholtz Center Munich and is currently leading the Medical and Environmental Dosimetry Group at the Institute of Radiation Protection. He is professor at the Medical Faculty of the University of Munich, member of the Committee of Radiation Risk of the German Radiation Protection Commission since 2003, and serving as Editor-in-Chief of the Radiation and Environmental Biophysics journal since 2005. Since 2010 he is EURADOS Council member, and since 2011 he is vice-chair of the Radiation Protection Association of the German Physical Society. In 2014 Werner Rühm has been elected chair of EURADOS and has become a member of the German delegation to UNSCEAR.

In 2016, he has been Chair of ICRP Committee 1 and member of the Main Commission.
